BIG SLASH IN MILITIA UNDER PROPOSED BILL

Finance Committee Agrees on \$255,000 Appropriation; Means 3,900 Instead of 6,700 Men

SOCIALIST WILL FIGHT FOR GUARD'S ABOLITION

Promises to Carry Opposition to Blaine Program to Floor of Senate

MADISON, Wis., April 5.—The Associated Press reports that the finance committee of the Wisconsin national guard bill, which would reduce the number of men from 6,700 to 3,900, has been approved by the senate. The bill is expected to pass the house next week.

At least 2,000 men will have to be discharged from the guard, the Associated Press says. The bill is expected to pass the house next week.

It was learned from members of the finance committee that a strong opposition to the bill is expected in the house.

Light on Floor

Senator Walter P. Reuther, who is expected to be elected to the floor of the senate, is expected to be elected to the floor of the senate.

LEGION ASKS \$100,000 FOR CARE OF U. S. SOLDIERS' GRAVES ABROAD

The American Legion, which has been working for the past several years to secure the passage of a bill providing for the care of the graves of American soldiers abroad, has today announced that it has received a grant of \$100,000 from the federal government.

INDIANAPOLIS, Ind., April 5.—To make a grave of every American soldier abroad every year, the American Legion has today announced that it has received a grant of \$100,000 from the federal government.

For the past three years, the legion has been working for the passage of a bill providing for the care of the graves of American soldiers abroad.

According to the most recent figures, the graves of Americans are divided as follows: 31,400 in France and Belgium, 488 in England, 140 in Scotland, 10 in Ireland, and the body of one American sailor in Spain.

Contributions already have come in. The first of the world war legions to contribute was former President Woodrow Wilson. The first legion post was Chief Post, Paducah, Ky., closely followed by a post in Kansas City, Kas.

SIX CANDIDATES IN RUNNING FOR ASSESSOR OFFICE

Council to Elect South Side Assessor to Succeed the Late A. H. Pein

THREE CANDIDATES ARE OUT FOR CITY ATTORNEY'S OFFICE

Appointment of Bridge Tenders Taken Out of Council

SIX candidates for the office of assessor and three candidates for city attorney will ask appointment when the new council convenes for the first time Tuesday afternoon, April 17, according to information learned today.

Clarence J. Weber, L. J. Brady and O. J. Swenness, present incumbents, are running for the office of city attorney.

At the tax commissioner's office Friday morning, six new candidates for the office of assessor were mentioned. Five of the candidates, George Berger, Chris J. Miller, William Scherrer, Frank J. Mashak and E. Scheffler, are seeking the position formerly occupied by the late A. H. Pein, south side assessor. George Young, it is announced, will run in opposition to Pat McQuay, present north side assessor.

Other candidates for the office may be out but the above named are those whose candidacy has come to the attention of several aldermen interviewed on Friday.

The council postponed appointment of a successor to Mr. Pein until the new administration went into effect.

At the first meeting of the new council on April 17, the new president will be elected and appointment of committee will also be made. Alderman Roddie, of the Eleventh ward, has been president of the council for the past term succeeding A. P. Funk of the Fourteenth ward.

The appointment by the council of bridge tenders has been eliminated through action of the council during the past year. The bridge tenders are now appointed by the board of public works. The north side weigh-master will be elected at the first meeting. The position is now being held by C. E. Lundy.

The new mayor's inaugural address will precede any other business taken up at the first meeting of the council.

ASSEMBLY ADVANCES MEASURE FOR RECALL ELECTIONS IN STATE

MADISON, Wis., April 5.—The assembly passed today a resolution amending the constitution so as to provide for recall elections upon petition of 25 per cent of the voters. Adoption of the amendment by the people would mean that all elective public officials, including judges, would be subject to recall.

The vote was 44 to 16, a majority deemed sufficient to assure the resolution being finally concurred in, and sent to the voters. Assemblyman Matheson endeavored to have the resolution non-concurred in, but his motion to this effect lost, 18 to 60.

30 MEXICANS HELD FOR PLOT AGAINST THE GOVERNMENT

MEXICO CITY, April 5.—By The Associated Press.—More than thirty persons were arrested Thursday night at Santa Anita, a suburb of Mexico City, by the authorities believe was held for the purpose of plotting against the government.

KILL DIVORCE BILL

MADISON, Wis., April 5.—Divorced persons will not be required to wait five years before remarriage, as provided in the Timmerman bill. The assembly killed the bill Friday without debate.

The assembly also killed the Laffey bill requiring railroads to maintain alarm bells at crossings of trunk highways, and the Barber bill expanding the law against criminal operation to apply to females submitting to such operations.

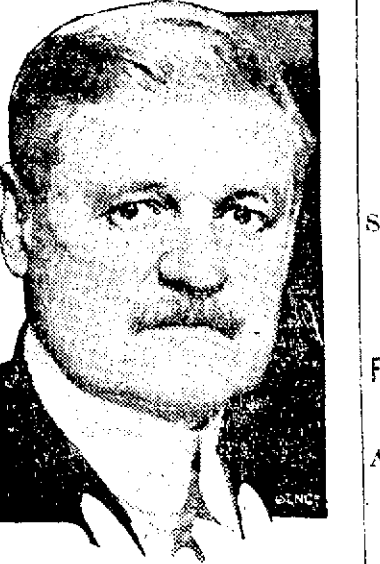

BONDS WORTH TWO MILLION INCLUDED IN MAIL ROBBERS' LOOT SAYS ST. LOUIS PAPER

ST. LOUIS, Mo., April 5.—Registered bonds of the St. Louis Federal Land bank amounting to \$2,120,000 were in the loot obtained by five bandits who last Monday morning held up a mail truck in the heart of the downtown business section here, according to information obtained Friday afternoon by the St. Louis Post-Dispatch.

The bonds, printed in Washington, were being sent to the bank here. They lacked the signatures of the vice president and secretary of the bank, but postal authorities believe the bandits would not hesitate to forge these signatures, the Post-Dispatch says.

The stolen land bank bonds were in number and denomination as follows:

CHICAGO MAYOR

William C. Dwyer, democratic, shown here, was elected mayor of Chicago April 3, defeating Arthur C. Luden, republican.

VOTE TO ADJOURN ENDS FILIBUSTER IN SENATE TODAY

Put Over Till Next Week Action on Bill Providing Additional University Regents

SENATE BUSINESS TIED UP SINCE EARLY ON THURSDAY

Sought to Hold up Vote Till Absentee Was Located

MADISON, Wis., April 5.—The senate adjourned until next Tuesday, after the senators had agreed to place the Severson bill, providing for an increase in the membership of the board of university regents, on the calendar for next Wednesday. This measure tied up the session throughout Thursday and into the night.

There was no business of importance transacted in the upper house today.

The filibuster engineered by progressive members of the senate throughout Thursday, to hold off a vote on the Severson bill to increase the size of the University of Wisconsin board of regents, until an absent member could reach Madison to prevent its defeat was continued into the early hours of Friday morning, when adjournment was taken to nine o'clock.

Passage of this bill would give the administration immediate control of the administration of the university.

Senator A. E. Geary, Edgemoor, led the filibuster which tied up business in the upper house throughout the day and night. There were four calls of the house and numerous parliamentary maneuvers by which members attempted to break the grip of those opposing to prevent a vote on the regent bill.

The wrangling of members was stopped long enough during the evening to permit a vote on the quick bill providing for licensing of all motor vehicles. The vote was 16 to 15, and the measure was again killed, 16 to 15. Senator Eldredge was changing his stand.

This bill was once passed by the upper house with little opposition. Senator W. L. Smith then moved reconsideration of the vote by which it passed, and this move prevailed. The measure was then killed followed by its revival last night, and later by its final killing.

Senators Timothy Burke and Howard Teague spoke against the proposal. Senator Burke declared that the measure was aimed at law and order.

KIWANIS HAS 1,000 CLUBS

CHICAGO, Ill., April 5.—Announcement that the Kiwanis club international had reached the mark of 1,000 clubs with a gross membership of 80,000, was broadcast to the affiliate clubs Friday by Fred C. W. Parker, secretary.

Ten of \$40, twenty of \$100, twenty-five of \$500, five hundred of \$1,000, twenty-five of \$5,000 and 150 of \$10,000.

The total of other bonds taken, it was learned by the Post-Dispatch, was approximately \$225,000, of which \$81,250 at least were negotiable.

It was also learned that shortly before the holdup of the armored truck, ten sacks of registered mail containing many valuable packages for large down town banks and trust companies, were delivered at the central post office, and the bandits thus missed these pouches. They obtained nine pouches of registered mail.

JOINT SESSION ON HIGHWAY TAX BILLS PLANNED

State Highway Engineer to Explain Provisions of Tax Bills Now Pending Before the Legislature

FOUR SEPARATE MEASURES ARE OFFERED FOR CONSIDERATION

All of Bills Designed to Place Road Building Burden on Automobile Owner

MADISON, Wis., April 5.—By The Associated Press.—Highway legislation before the present session will be considered at a joint meeting of the two houses next Wednesday, evening when A. R. Hirst, state highway engineer, will explain provisions of the automobile tax bills pending in the legislature. Following this meeting the proposals now held in the highway committee will be reported to the floor. Senator John Cashman, chairman of the upper house committee, announced.

Four highway financing bills are now before the legislature, or in the course of preparation. They all are designed to place from \$8,000,000 to \$11,000,000 of the cost of road building and maintenance on the automobile owner, in place of the \$5,000,000 that is now borne by those who use motor vehicles.

Hirst at the evening session will explain each of the measures to the legislators, showing the effect of their application. In the afternoon a final hearing will be held by the joint highway committee on the weight tax bill and the gasoline tax proposal, which it is sponsoring.

The first highway measure to come into the present session was the committee bill providing a graduated license fee based upon weight, varying from \$10 to \$25. This bill would raise \$8,000,000 from the automobile owner to be used to construct and maintain a 10,000 mile system of state trunk highways, in place of the present 7,500 miles system.

Following introduction of this bill, the highway committee brought in a bill providing for a two cent gasoline tax to be distributed back to the counties on the basis of the mileage of the county roads, not a part of the state or county trunk highway system. Between \$3,000,000 and \$3,500,000 will be raised by this bill to be applied to 63,000 miles of road, the committee estimated.

County Boards Back Bill

Then the county boards association and the league of municipalities introduced a compromise highway measure through Senator Walter Polakowski, Milwaukee. This bill provides for a graduated license fee based upon weight, ranging from \$8 to \$24, the proceeds to be distributed 85 per cent to the state and 15 per cent to the counties. In addition there would be a highway privilege tax of two per cent of the valuation of automobiles, which would be distributed back to the local units of government in lieu of the personal property tax on automobiles, which would be repealed. A two cent gasoline tax would also be provided, the revenue to be used 55 per cent by the state and 15 per cent by the counties. This measure is designed to raise \$10,000,000, out of which \$8,000,000 would be retained by the state.

Assemblyman Robert Caldwell, Lodi, has a bill practically the same as the county board bill, with the distribution feature somewhat changed.

The legislators will be asked to choose between the various measures advanced by the committee and by members. There has been no vote in either house that would indicate the attitude of the members toward these bills.

POLICE ASKED TO LOCATE RELATIVES OF GEORGE MOORE

Police headquarters Thursday received a letter from J. Mattern, New Orleans, announcing the death of George S. Moore, who is believed to have relatives living in or near the city of La Crosse.

Mattern states in the letter that Moore owned liberty bonds and stocks worth a considerable amount of money. Mattern also mentioned that Moore had spoken to him about living at Eau Claire at one time.

Any one acquainted with relatives of the deceased is requested to get in touch with the police department.

ANTI-PROFITEER BILL DEAD

MADISON, Wis., April 5.—The anti-profiteering bill was killed by the assembly Friday without a record vote. The bill would have made illegal exclusive sales contracts for any district or territory of the state. According to its author, the bill was aimed against "profiteering in certain commodities" and was intended "to protect consumers."

GOVERNOR SUSTAINED IN ASSEMBLY VOTE

MADISON, Wis., April 5.—The first action of the assembly to override a gubernatorial veto was made in the assembly Friday, resulting in victory to the governor. The bill was that an assemblyman Riser empowering county judges to issue certificates of the termination of life estates, which was vetoed by Governor Blaine last week. The assembly sustained the governor, 65 to 15.

AUTO CLUB FEED

The La Crosse Auto Club of Western Wisconsin will have a banquet at the Chamber of Commerce at 6:30 next Tuesday night. All auto owners in La Crosse are invited to this feed, which will be followed by several interesting talks on matters of importance to motorists.

MAINTAINS PEOPLE'S RIGHT OF ACCESS TO LAKES OF WISCONSIN

Lakes and Rivers Should Belong
to all the People Claims
Author of Bill

MEASURE SENT BACK FOR FURTHER
CONSIDERATION IN THE COMMITTEE

Substitute, More Drastic in Ef-
fect, May be Drafted

MADISON, Wis.—The right of access to all the people of the state to the lakes of Wisconsin is a proposed bill introduced in the Wisconsin legislature on Monday, April 5, which would compel the posting of lands around lakes and the leading of highways to the lakes so that the public would have full access to the water.

Importance to the bill was given as a result of a decision in the Wisconsin supreme court this week, which held that a land owner controlled the shores of a lake to low water level. This important decision affecting all the waters of the state has caused a stir in the legislature. Many members of the legislature expressed themselves as favoring legislation which will open every lake in the state to the people. The bill has been referred back to the legislative committee of the house for further consideration. It was charged that the bill was not for the people, but that a substitute should be drafted which will secure for the people the right of access to the lakes of Wisconsin.

There is a claim of access to Wisconsin lakes from the fact that it is practically impossible for any person to get to them except where the public highway touches the lake. Governor declared in a message to the legislature: "I think the lakes of the state should be opened to the people. The public is being more and more excluded from these lakes. This legislature should take action before it is too late."

"Up in northern Wisconsin, one wealthy man has bought all the land around the lake and has built a high wire fence to keep the public out," said Assemblyman A. M. Warden. "The man cut his way through the wire fence to get to the lake and understood that an injunction has been obtained to keep the public out. The state has replenished these lakes with fish and now the public has been excluded from fishing in these lakes. Let us act before it is too late and save the lakes of Wisconsin for all the people."

"The lakes and rivers should be open to all the people of the state," declared Assemblyman James T. Collier in urging the passage of the bill. "I cannot understand why the state should spend thousands of dollars every year to plant fish in these lakes and then be denied the privilege of having access to use the lakes. If things are to go on as they have in the past ten years, wealthy residents of Chicago, St. Louis, and Kansas City will own the lakes of Wisconsin. The people will plant these lakes with fish and the millionaires will catch the fish."

This early objection made to the bill was that it might not be accomplished as it was intended to do. For this reason, Assemblyman Charles Perry of Milwaukee asked that the bill be returned to the legislative committee of the house. The bill will again be on the calendar within the coming week. Assemblyman J. D. Grandino of Portage county, declared that it was one of the most important pieces of legislation in the public interest which will come before this session of the legislature.

LONDON.—Sir William Bird says he'll introduce in parliament a bill making it compulsory to place on every imported egg a stamp giving date of the egg's hatching.

HELIUM GAS MAY NOW BE LIQUIFIED

Discovery Opens Up Big Possibilities
In Industrial Field

TORONTO, Ont.—Professor John McClelland of the University of Toronto, has discovered a process for liquifying helium gas. The new discovery, it is said, will open up big possibilities for the gas in the industrial field.

Helium is a non-combustible gas which is nearly as light as hydrogen gas and can be used as a substitute for it. Its principal use up to the present time has been as a filling for dirigible balloons and other lighter-than-air craft, because of its non-inflammability. Many air disasters due to the ignition of gas bags could have been avoided, it is said, if helium gas had been used.

In its new liquified state helium will be particularly valuable in refrigeration, since the temperature reaches within one degree of absolute zero. This property of extreme temperature will also make the liquified gas especially useful in scientific research, according to Professor McClelland.

The value of helium as a commercial product is enhanced by its comparative scarcity. The United States and Canada are the only countries in which it is found. During the war the United States took steps to protect and conserve its helium gas, and since the war it has prohibited its export from the country. Canada's source of helium is located at Bow Island, near Calgary, Alta. This field is said to be the largest in existence.

Oatmeal —a "new dish"

This has solved the oatmeal problem for thousands of homes. Slew raisins and mix with the cereal after it is cooked. Add the following:

The raisins furnish mineral salts and valuable food items. But best of all, they make oatmeal attractive with the lure of healthful sweets.

See Med. Raisins should cost you no more than the following prices:

MANUFACTURERS OF STATE FIGHT JOB INSURANCE BILL

Senate, Sitting as Committee of
Whole, to Hear Debate on
Huber Measure

MADISON, Wis.—Manufacturers from all parts of the state are expected to journey to Madison on Wednesday, April 20, when Senator Henry A. Huber's unemployment insurance bill will be up for a hearing.

The upper house on that day will resolve itself into a committee of the whole to hear all interested parties. Employers contend that the Huber measure is highly theoretical, but that it would throw industry all out of gear if it were ever enacted into law. It would have the effect, they say, of boosting prices on manufactured products of all kinds.

Under the Huber bill, employers would be obliged to pay men thrown into idleness through no fault of their own, \$1 a day. Proponents of the measure feel that this would prove no hardship upon employers and would have the effect of stabilizing industry to the point where unemployment and periods of depression would be done away with.

"I trust that all interested parties will make an effort to be heard on this bill," declared Senator George E. Skogmo. "They will have this opportunity on April 20."

A joint session of the legislature will be held Wednesday night, April 11, when various highway measures will be discussed.

China's 1923 cotton crop was considerably damaged by typhoons.

Research, according to Professor McClelland.

The value of helium as a commercial product is enhanced by its comparative scarcity. The United States and Canada are the only countries in which it is found. During the war the United States took steps to protect and conserve its helium gas, and since the war it has prohibited its export from the country. Canada's source of helium is located at Bow Island, near Calgary, Alta. This field is said to be the largest in existence.

CRIMINALS SUMMARILY SHOT

PETROGRAD.—To rid Petrograd of its criminal element, the police are utilizing daily their new practice of speedy punishment in certain cases without trial. Recently, according to the official press, seven bandits who were caught in the act of robbery and resisted arrest, were shot in one batch.

WEEKS SAYS REDS EXAGGERATE COST OF U. S. DEFENSE

Declares False Propaganda is
Spread by Pacifists to
Undermine U. S.

WASHINGTON, D. C.—"Pacifist" propagandists and organizations in the United States were denounced as public enemies by Secretary Weeks in a statement made public by the war department.

Americans would do well, the statement said, to inform themselves of the facts and to examine into the character and patriotism of those who are promoting the pacifist campaign, before taking a step that may readily alienate them from the enemies of the republic.

Sees Hand of Reds

Widespread circulation of "incorrect and misleading statistics," Mr. Weeks said, had been accomplished by pacifist agencies, including those forces in America who are preaching revolution and the establishment of a communist government and also those who seem to believe that any army or navy is unnecessary. "It is informed that patriotic citizens, it was added, are lending themselves to reduce, if not destroy, the military safeguards of the nation as a result of pacifist propaganda.

"Typical of the material that is being used is what seems to me to be a dangerous campaign," the secretary continued, "is the following statement which appeared in a recent bulletin of an organization calling itself the National Council for the Prevention of War, which has its headquarters in Washington.

"The official prepared chart enclosed shows that we are allowing one-fifth of our budget for 1924 for the army and navy. More than 85 per cent of that budget will go for past and future wars."

Secretary Weeks said the chart carried a legend stating that it had been prepared by the Federal Bureau of Investigation from the budget report submitted to congress by President Harding in December, 1922.

Denies Statistics

"This government is not and never has been spending 85 per cent of its budget for military purposes," Mr. Weeks declared. "The budget report of December 3, 1922, in a complete and fair statement numbered nine, shows that approximately a lesser amount of the small budget is being expended for the national defense program in the fiscal year, 1923. In the larger year of 1924, the cost of preparing a defense for national defense, whereas the appropriation actually made for the national defense for the fiscal year 1924 was 17.5 per cent of the total.

"It is an important fact that the pacifist error the figure of 85 per cent of propaganda once. When they come to using their vision compass, they concentrate their entire effort on the purposes represented by the figure of 17.5 per cent of national defense. Never do they suggest means for reducing the public debt, charges of the per cent and veterans' bureau expenditures. All that they seek to eliminate is the relatively small expenditure for military defense of the country."

UKRAINE PEASANTS SLAIN
BERLIN.—The Red army is reported to have executed 340 peasants in the Ukraine, apparently because of their resistance against the Soviet government of high church dignitaries.

LEINER NEAR DEATH
RICHMOND.—Two of the common spectators who attended National League games at the power plant die at one moment and that by illness will be fatal.

REAL ESTATE MEN HOLD ANNUAL MEET ON MONDAY NIGHT

Elect Officers, Review the Past
Year's Activities and Plan
for the Future

The La Crosse real estate board held its annual meeting on Monday evening at the office of W. A. Lewis in the State Bank building, at which time the following officers were elected:

W. A. Lewis, president; J. F. Saltz, vice president; H. L. Taylor, secretary; Frank H. Roth, treasurer.

The secretary furnished a review of last year's business, showing big improvement in building operations of houses and schools, and a great deal of street grading and paving, sewer and water extensions.

The prospects for the present year are for greater activity as the shortage of housing is very acute, there being a shortage of about 250 houses, that will cost approximately \$1,500,000. There is also a shortage of stores, that will become somewhat serious when business conditions expand as all indications point out.

A new spirit of activity is manifested in the real estate men feeling the need of taking the initiative in many of the needs of the city outside of the matter of purely real estate transactions.

The need of another building and loan association has been recognized for some time for the increased requirements of the city, and there is also need of another bank to assist in financing big deals, also an auditorium, and many other matters that will be given attention as fast as it is possible to take them up.

The Wisconsin Realtor, the official monthly organ of the real estate brokers of the state, is giving his space in the interests of La Crosse, advertising this city all over the state, expecting to hold the next annual convention here.

HIBBING PROPERTY CONDEMNED

HIBBING, MINN.—Six lots, on which were situated a home and barn and an apple orchard, the property of Andrew N. Nelson, were condemned by a jury in Justice of the Peace William Kellar's court Tuesday, and Nelson was awarded \$15,185. Nelson asked \$25,000. The lots and property are situated in Parkview addition and the village wanted the property condemned to extend Albee street between the two avenues.

SAXOPHONE SOLOS TO FEATURE GLEE CLUB APPEARANCE

LEE ROGERS

Master of the saxophone!

That's the title that belongs to Lee Rogers, soloist with the Marquette University Glee Club of Milwaukee which is to appear in concert here on Wednesday, April 11th, under the auspices of the Knights of Columbus.

This is Rogers' second year with the Marquette musicians and following his debut with the club in the northern part of Wisconsin in 1922, he has been in constant demand not only in Milwaukee but throughout the state.

Popular aces will be played by Mr. Rogers.

There also are other soloists with the Marquette club, Hyman Leopold is lyric tenor, Victor Hanna is baritone, Joseph Hartgen is violinist, and Karl Brodner is pianist.

Much interest also is attached to the appearance of the quartet, which promises to be one of the best numbers on the program.

POLICE TO HAVE DAY OFF

MADISON, Wis.—This day's rest in eight will be allowed policemen in cities of the second class, following Governor Blaine's signature Friday to the Lindahl bill. This measure provides a full twenty-four hours of rest once in every eight days.

SUPERIOR DEATHS BELIEVED DUE TO POISON LIQUOR

SUPERIOR, Wis.—Alcohol poisoning from drinking moonshine caused the death of Peter Courval, 32, and Ambrose Poirier, 75, at the Peirer farm, near Blueberry, Wis., last Tuesday, according to a statement issued Thursday by Coroner Z. A. Downs. Courval and Poirier were found dead in bed by neighbors late Tuesday and it was thought possible that the men were victims of a double murder or a suicide pact.

Several empty jugs which had contained moonshine were found on the floor and part of a dismantled still was found by the coroner when the farm was searched.

Marcel, the hair dresser who created the "wave" known to women, celebrated the fiftieth anniversary of his invention.

Coolidge Sees Public Demand Chief Run Again

WASHINGTON.—Responding Friday to inquiries as to his attitude toward 1924 Vice President Coolidge predicted that President Harding's re-nomination and re-election would be demanded by the people because of the record of his administration.

The vice president declined to predict what his own attitude would be toward a re-nomination as Mr. Harding's running mate, indicating that he did not regard the present as an opportune time for discussion of the subject.

HOT SPRINGS HOTEL BURNS WITH LOSS OF MILLION AND A HALF

HOT SPRINGS, Ark.—One man was dead, two were painfully injured, more than 300 persons are deprived of their personal effects and clothing, and the site of the Arlington hotel was a vast and smoking ruin Friday as a result of fire which late Thursday destroyed this hostelry, the oldest in Hot Springs, with a loss which approximates \$1,500,000.

George Ford, John Wood and Butler Brown, Hot Springs, firemen, were crushed under a falling wall as they were working on a hose line in the ruins several hours after danger from the fire itself had passed. Ford died shortly afterward in a hospital. The extent of the injuries sustained by Wood and Brown, though serious, were undetermined early Friday.

CLAIM COURT RULING WILL CRIPPLE GAME LAW ENFORCEMENT

Decision Preventing Search of
Automobiles Will Afford
Protection to Violators

MADISON, Wis.—Just what effect the recent decision of the supreme court prohibiting the search of automobiles without a search warrant will have on the enforcement of the game laws of this state is one of the problems which will come before the state conservation commission. The court this week in a case from Kenosha county held that a sheriff could not search his car for an automobile and search it for "the game."

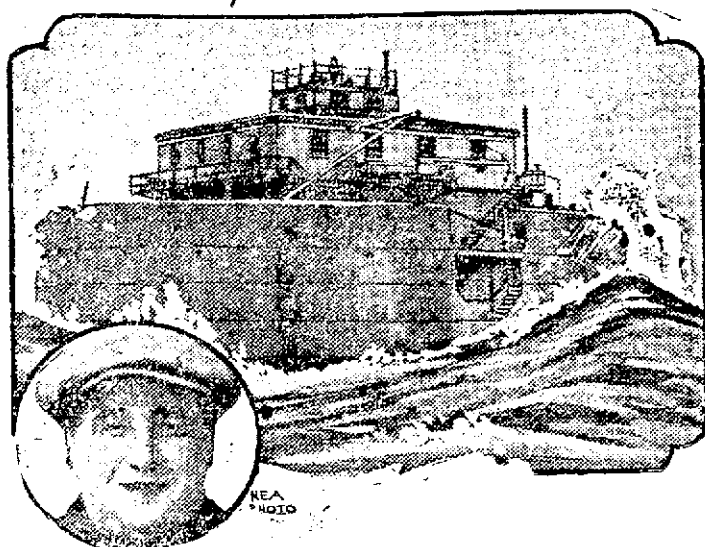

In the decision of the court it was pointed out by Judge H. C. Richmond that one section of the constitution was as sacred as any other and the provision in the constitution protecting a person from unreasonable search was in full force.

The ruling is made that a large majority of the hunters who are arrested in northern Wisconsin get their shot from the law through a discovery of evidence of game law violation in their automobiles. Men have been arrested without a search warrant whose guns were not "loaded down" as required by law and arrests have been made of a great many found in the act of hunting. The claim is being made by the conservationists that the decision of the court will protect hunters from much of the interference they have been subjected to by game wardens in the past.

JAP REFRACTS SLAYING; IS
GUILTY OF MANS LAUGHTER
MILWAUKEE, N. Y., (A. P.) James Nambu, Japanese, formerly a member of the Japanese army, was charged with the slaying of Robert Hunter, Mr. Hunter's chauffeur, after he had been arrested for slaying a man.

JERUSALEM MOHAMMEDANS
JERUSALEM, (A. P.) Several persons were arrested during an Arab procession in celebration of the "New Year" feast.

ROBINSON CRUSOE OF 1923

Robinson Crusoe was no more isolated than Harry Holzworth (inset) keeper of the "crib" shown above, separated from the mainland at Cleveland by five miles of the angry waves of Lake Erie. When Holzworth fell ill with tonsillitis, he had his assistants send radio messages to Cleveland for aid. A power boat, containing a doctor, fought through a fifty-mile gale, but was unable to land the physician. He, however, shouted instructions for treatment. The following day a tug was brought to the crib and Holzworth was removed while the crew of seven risked their lives in the stormy waters.

in Mouscat (the prophet Moses), in HELSINGFORS, Finland. — The cost of living in Finland decreased eleven points during January. This is the largest decrease recorded since the war.

SMOKE SCREEN WILL BE
TESTED AS PROTECTOR
WASHINGTON, D. C. Fighting frosts away from fruit orchards with the smoke screen of war time is to be tried by scientists of the department of agriculture and the chemical warfare service of the army.

The experiment will be made at Edgewood arsenal, near Baltimore. The tests are expected to determine whether it is feasible to use the method over the vast fruit orchards of the country when millions of dollars worth of fruit is imperiled by proper frosts.

U. S. REPORT ON LABOR IN HAWAII ANGERS JAPANESE

Press Objects to Warning
Against "Menace of Alien
Domination"

NO LABOR SHORTAGE FOUND IN
ISLANDS BY INVESTIGATORS

Probe Ordered in Connection
With Labor Importation Plan

HONOLULU, T. H.—The report of the federal commission, which recently investigated labor conditions in the Hawaiian Islands in connection with the resolution pending in congress to permit the importation of otherwise ineligible aliens to counteract an alleged labor shortage, was subjected to considerable criticism by the Japanese language newspapers here, according to translations on file with the territorial attorney general.

The report said the commissioners had found no labor shortage in the pineapple or sugar industries, but that a shortage was apparent in the rice industry. The Japanese newspapers objected, particularly in their editorials, to the paragraph of the report which stated that attention should be called "respectfully to the menace of alien domination, and that the present policy of parental adoption and the importation of picture brides for the Japanese should be stopped because these practices have defeated the purpose of the gentleman's agreement to curtail common labor by augmenting the supply to such an extent that it will soon overwhelm the territory, numerically, politically and commercially. The menace from a military standpoint can be verified fully by referring to the records of related federal departments. If these islands are to remain American, an assured control of political, industrial, commercial, social and educational life must also be American."

The Nippon Jiji expressed regret that the members of the labor commission have swallowed the colored propaganda of the interests, and have helped on the alleged Japanese menace in their reports. We did not believe that the commission, which investigated the actual conditions, would make such a report. This is another instance of the result of reckless propaganda of men who care only for the end and not for the means.

The Hawaii Herald said that the report will "debase the capitalist, and it impresses one that Chinese coolies will be imported." Like the Nippon Jiji, it believes that the commission brought down the materials fed to it by the agents of the sugar planters.

The Hoochi continues: "The fact that the labor probes have distorted the facts and presented the false argument of Japanese domination has completely shattered the westerners' strong faith in the labor leaders who, in fact, would never misrepresent the truth. In all classes there are honest and dishonest men. But the labor did not believe this applied to the leaders of labor organizations, who style themselves the creators of a new age."

The Hawaii Herald, attached to the declaration of the report that the Japanese control the building trades, as well as most of the small stores of Hawaii.

It was pointed out that there are 177 Japanese merchandise stores as compared with 56 American, and 29 Japanese theaters as against 6 American, the Herald said. "How able you to compare an American firm like American Factors, or T. H. Davies & Co., with a small Japanese store, or to compare the new Hawaii of Princess theater with the Asahi of Park Japanese theaters."

"The report, after all, is nothing but misrepresentation, as far as the Japanese problem is concerned."

Laborers in Hawaii can rest assured that the labor commission and the mainland will not sanction a measure which will be of great advantage or benefit to the capitalists. The so-called Japanese menace is most menacing to the Japanese laborers here, but since the report has no material effect on the laborers, they should not be restless and should keep their movement for higher wages."

GREAT BRITAIN'S LONELIEST ISLAND

Tristan Da Cunha, off the south-west coast of Africa, is the most forsaken of the British island colonies. It has neither trade nor manufactures, and if it were able to produce anything in quantities the goods would have to be kept in store indefinitely, for ships are as scarce as the eggs of the Great Auk.

Once on a time the admiralty sent

a mail, a doctor and a padre, but it grew tired of the expenses, and the people were told to come off Tristan or stay on and starve.

Being attached to what to them is the Mother Isle, they chose to stay and starve. And, indeed, they are not fitted to compete in a strenuous world, for they are a simple, uneducated, kindly

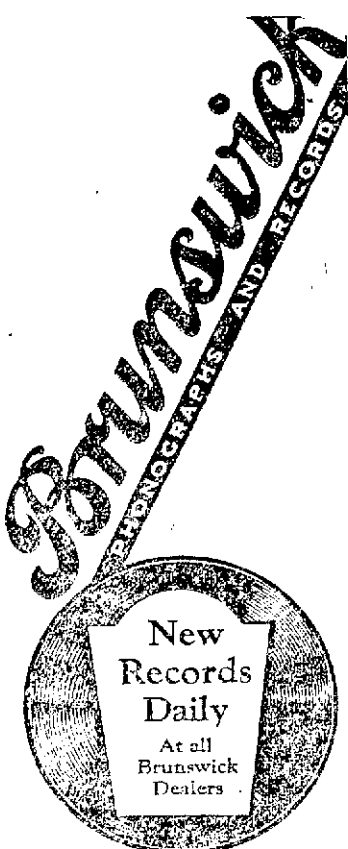

race, like big children in temperament, and would surely fall a prey to land sharks.

The herd of buffalo at Wainwright, Alta., Canada, is reported to be one of the largest in existence. It is contained in the National Park, numbers 50,000 and is growing rapidly.

GOLDFISH AS MOSQUITO KILLERS

The goldfish is recommended by the United States fishing bureau for keeping down the mosquito supply. A couple of these fish in a rain barrel will keep it practically free of "swamp-glowers" and for the same reason goldfish are valuable in fountain basins

and artificial ponds. Swampy, and rising waters spread over the flats, but the new method of ditching the silt meadows, now applied in New Jersey, is based on the principle of opening up the marshes to armies of "killifishes," which in countless millions move with every flood tide up the little creeks and ditches. As the fishes

RUSSIA LAUNCHES NEW COURT SYSTEM FOR WHOLE NATION

Revolutionary Tribunals Pass
Into History With Inaugu-
ration of New Courts

MOSCOW.—The revolutionary tribunals which, along with the courts of justice, were instruments of terror during the worst period of the Bolshevik revolution, passed into history the other day when a new system of courts was inaugurated throughout Russia. While founded upon lines not unlike those of the court systems of some other European countries, the new Russian courts have some particularly commensurate features of their own.

The Supreme Court of Russia, which will sit in Moscow, will have three branches. One will be for criminal cases, one for civil, and the other a court of appeal. There will be also district courts to try cases of first instance, and the other district courts, corresponding to police magistracies, will operate in each village and are distinct from the others.

These Supreme, District, and other courts, which will sit in Moscow, will have three branches. One will be for criminal cases, one for civil, and the other a court of appeal. There will be also district courts to try cases of first instance, and the other district courts, corresponding to police magistracies, will operate in each village and are distinct from the others.

A prominent feature of the new system is that it is designed to be a permanent one. There will be no more of the temporary tribunals which were set up during the worst period of the revolution.

The new system is designed to be a permanent one. There will be no more of the temporary tribunals which were set up during the worst period of the revolution.

"HOUSE OF DAVID" IN \$80,000 SUIT

This shows the federal court room at Grand Rapids, Mich., where John William Hansell and his wife, Margaret, former members of the "House of David" at Benton Harbor, Mich., are suing the colony for \$80,000, alleging their property was confiscated and other abuses committed. The man in the swivel chair is Judge Beahm, formerly of California, representing Benjamin Farnell, "king" of the colony.

The guilt or innocence of the accused, a majority vote of the three judges to convict or free the prisoner. Panels of these prospective jurors are now being selected throughout Russia. The various trade unions and professional organizations select them from their own members, and they must be ready to go into court at any time they are called upon. The Moscow quota of jurors is 4,000. When they sit in trials the jurymen are paid, not by the government, but by their employers, receiving their regular day's wages for the time spent in court.

When the new court system is fully working it is expected that most of the lawyers appearing will be men trained in the law courts of the old regime. Professional unions of lawyers are being organized, subject to the approval of the Soviet authorities.

There were 1,992,824,007 postage stamps issued by the United States government in 1931.

ITALY'S DOORS ARE OPEN TO AMERICANS

Easy to Entertain Tourists and
Nation Does Best to Make Their
Paths Pleasant

ROME.—American tourists have begun their regular annual invasion of Italy. Where some of them expected to find excitement and agitation, due to the recent Fascist coup in seizing the government, they are confronted by an Italy tranquil and quiet and without traces of a political upheaval.

Italy is eager for the tourist, and is trying to make pleasant his path. The abolition of the \$10.00 fee for a visa to an Italian passport is expected to increase the tourist business and the Italian customs authorities are performing their duties with as

little annoyance as possible. In many cases travelers are passed with the examination of only one piece of their baggage, and this perfunctory. Trunks and valises that clearly contain personal effects, and would not be used for the transport of merchandise do not arouse suspicion and are an asset to the tourist.

Henceforward sightseers in Italy will be able to buy season tickets good for any museum, picture gallery, or excavation in the country and at a material saving. The new tickets cover periods of one, three, six and 12 months, and cost respectively 45, 90, 135 and 200 lire.

DISTRICT MEETING OF SOCIAL WORK IS PLANNED FOR SPARTA

Eight Counties to Have Representatives at Conference Early this Spring

SPARTA, Wis.—Eight Wisconsin counties, Jackson, Clark, Adams, La Crosse, Sauk, Vernon, Juneau and Monroe counties, will hold a district conference of social work this spring, according to the secretary of the Wisconsin state conference of social work, and it is planned to hold this gathering in Sparta.

The work of putting on the conference is directed by Judge J. A. Hill of Racine, and by Dr. L. H. Pappas, superintendent of the State Home for Inebriate Children at Sparta.

The conference will be similar to the ones held in Platteville, Oconomowoc and Eau Claire. Various subjects will be discussed along the lines of mental hygiene, health and social work, the court and the law, public recreation, industry and social work, public officials and constructive social work.

There will be seven members of the faculty of the University of Wisconsin, on the program, for speeches: Dr. D. W. Stewart, director of the Wisconsin State Laboratory of Hygiene; Prof. E. A. Ross, sociology department; Prof. John R. Commons, economic

OLIVER STEWART COMING WITH FLYING SQUADRON

The Honorable Oliver W. Stewart, of Chicago, President of the Flying Squadron, directs the work of that organization from the last division of speakers. This arrangement brings him into each city on the last day of a series of meetings, and permits him to close up his campaign in each place.

Mr. Stewart, who was a former member of the Illinois legislature, was associated with former Governor J. Frank Hanley in founding the Flying Squadron Foundation and succeeded to the head of the organization on the death of the former on August 1, 1920.

No admission is charged for any of the meetings held by the Flying Squadron.

The Squadron is to be in La Crosse for a series of six big meetings on Tuesday, Wednesday and Thursday, April 10, 11 and 12th. Both afternoon and evening meetings will be held in the First Congregational church, the afternoon meetings at 2:30 and the evening meetings at 7:30 p. m. Mr. Stewart will be heard

on the afternoon and evening of April 12th.

MILWAUKEE DOCTOR DIES
MILWAUKEE, Wis.—Dr. H. E. Bradley, for many years police surgeon and one of the best known physicians in the city, died Thursday night of pneumonia. He was 60 years old.

OLIVER W. STEWART
on the afternoon and evening of April 12th.

SALVATION ARMY IS NOT MAKING COLLECTION NOW

Captain Ryan Utters Word of Warning to Citizens to Beware of Impostors

The Salvation Army suffers many times through misrepresentation and misunderstanding.

"Only yesterday my attention was called to the fact that someone was taking up tin-burned collections in the city," said Captain Ryan. "Citizens calling my attention to the matter supposed it was someone belonging to the army."

"For general information let me say that the woman taking collection was a representative of the South Mission and that this body of people have no connection with the army, although the collector insisted that the army was backing them. This, of course, is not true."

"I never heard of such a mission before, but if there is one of such name let them make it clear to the people they are not Salvationists. We do not want to down anything that is good, but we do think there should be fair play. No one can ever say even in the darkest days of the army's history that they resorted to underhand measures to secure funds to carry on operations."

"Be it known to all readers of this

article that the army has one campaign a year which is conducted in the fall of the year—no other solicitation for money is done with the exception of the missionary effort in the month of April or last of March. Such an effort has just been completed and all collectors carried credentials signed by the officer in charge.

"All people approached for donations or tin-burned collections should make sure to whom they are giving, causing the collector to show authority for collection and at the same time make sure what the person in question represents."

"All over the country the army is being imitated and people are giving because they think it is the army. Beware of impostors."

TWO ARE RESCUED AS STEAMER GOES DOWN

KEY WEST, Fla.—The steamer Florida has gone down in the Florida straits off here, according to radio-grams received from the steamer W. H. Libby.

Two survivors were picked up by the Libby, the reports said. They were taken off the forecastle deck of the steamer, according to measures. A tug left here to meet the Libby and bring the survivors in.

CHERRY FETE PLAN FOR STURGEON BAY KILLED

STURGEON BAY, Wis.—Plans made last month by directors of the Chamber of Commerce for a three-day cherry festival July 3, 4, and 5, have been dropped as a result of resolutions in protest from fruit growers saying that the dates would interfere

with the organization of cherry pickers arriving then.

WAUKESHA LEGISLATOR WARS ON TRESPASSERS

MADISON, Wis.—Trespassing hunters should be more heavily punished than they now are, Assemblyman W. A. Froehner, Waukesha, believes. He has introduced a bill to increase the maximum penalties for trespassing from thirty days in jail to ninety days, and from a \$10 to a \$100 fine.

PARDON ALL LIFERS
ROMB.—Lifers in Italian prisons are happy. Queen Mother Margherita has asked the minister of justice to free all on completion of 30 to 50-year terms. Many will be freed immediately.

NINE ARRESTS IN MONTH
NEENAH, Wis.—Nine arrests were made by police here during March. Drunkenness led in the list of offenses, there being three arrests on that account.

Sure Way to Get Rid of Dandruff

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to comb or wash it out. The only sure way to get rid of dandruff is to dissolve it; then you destroy it entirely. To do this, get about four ounces of ordinary liquid arven; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most, if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arven

at any drug store. Four ounces is all you will need, no matter how much dandruff you may have. This simple remedy never fails.

BETTER MACHINERY TO FIGHT THE BOLL WEEVIL IS PLANNED

National Institute of Farming
to Aid Campaign of
Southern Farmers

CHICAGO.—By The Associated Press.—Plans to defeat the boll weevil and help restore prosperity to southern farmers by speeding up of their farming system were outlined here by the National Institute of Progressive Farming.

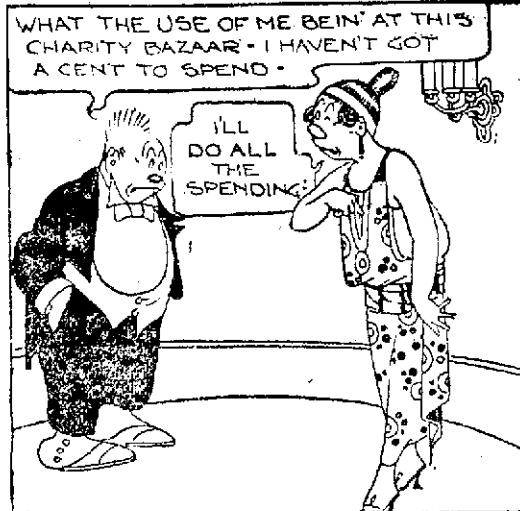

The institute believes, after an investigation of the evil that yearly causes so much loss to cotton growers, that the best means of combating it is the introduction of farm machinery to replace what it terms the "one mile and one-colored" hand system. Cooperation with agricultural colleges and experimental stations, county agents, chambers of commerce and agricultural high schools is planned in introducing higher mechanical standards.

Prof. C. H. Mifflin, formerly with the U. S. Department of Agriculture and a prominent agriculturalist, has summed up the boll weevil problem by saying that while it can not be eliminated, it is possible to defeat it with efficient cultivation.

Efficient cultivation, besides the loss before, and weather drives them off the field to seek sheltering quarters for the winter, the same thing could be done here. The same thing could be done here. The same thing could be done here.

When the average Iowa farm is equipped with \$1,110 worth of machinery and the average farm of the north and west carries about \$1,000 worth, the cotton belt farm has but \$600 and depends largely upon one horse and one hand.

BRINGING UP FATHER—

DREAMS OF SUNNY ISLANDS ENTICE MANY AMERICANS

Honolulu Official Receives Many
Letters from Men Who
Would be Kings

HONOLULU, T. H. The United States harbors a large number of citizens who would be kings, according to letters applying for royal jobs which have found their way to Governor Wallace R. Farrington. They come as a result of an apparently widespread misconception of the South Seas.

The applicants got busy after reading a number of newspaper articles headed "Hunters Wanted for Islands in

South Seas," and the erroneous information that "details might be obtained from the American Consul at Honolulu." The deluge of letters that followed found their way, in the absence of an American consul at Honolulu, to the American governor of the American Territory of Hawaii.

The newspaper article was part of a series entitled "Life as it Really is in the South Seas." The first article, according to information here, began with the question: "How would you like to be the ruler of a South Sea Island?" Apparently the number of American citizens who crave to don royal paraphernalia in some far-off palm lined, tropic island is legion. The applicants included insurance salesmen, farmers, university students, all men, cowboys, clerks and bankers. The position of king was described as not arduous, being not long and with continued series of "tall glasses of amber rum punch" always at the elbow of the monarch. The only disadvantage to the job was

given as "the loneliness, which grows."

One applicant wrote: "Seeing recently in one of our Texas papers an article in regards to kings' jobs in the South Sea Islands, would you kindly furnish me with the information in regards of king's job in said islands? What part of the islands are men wanted, what experience is necessary, if transportation is furnished, what salary is paid, and under whom does the applicant work if awarded a position? Is it a United States government position, or is it a local concern? Any other information you can furnish will be appreciated."

Another applicant states his qualifications in these words: "My dear

Consul: This story appeals to the writer, and if there is anything to it would be pleased to get in touch with the maker of kings. Have had lots of experience handling men and conducting business, and am sure I could learn how to make copra. If you know anything about this, put me next and the favor will be appreciated."

Governor Farrington will answer all the applicants.

COURT IN KITCHEN
BOLTON, England.—Ellen Hart, bedridden, had her husband arrested for desertion. She couldn't come to court so court came to her. The magistrate presided at the kitchen table while the woman gave testimony from her bed.

AGE-OLD FASHION IN HAIRDRESSING

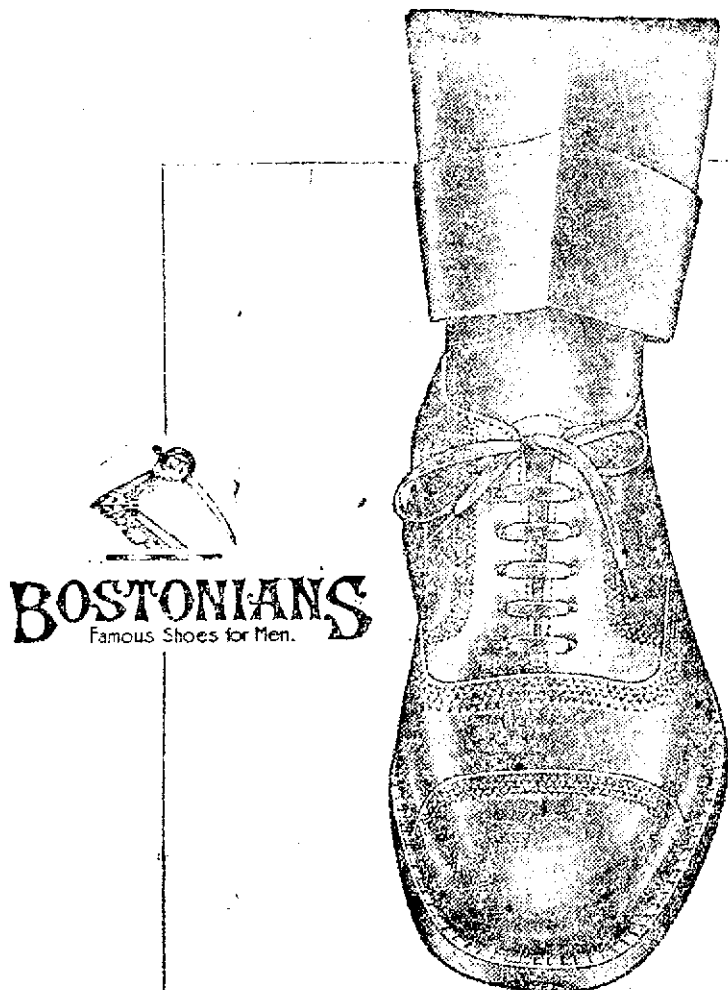

Hair naturally grows outwards in all directions, and the first man who found it falling in front of his eyes and brushed it aside must have been the first man to "part" his hair.

Coming to ages of which we have some definite knowledge, we find hair dressing in different fashions as far back as there are writings or monuments to record anything at all. So plaiting, which implies parting, is mentioned in the Bible. The Babylonians and Egyptians cultivated rows of elaborate curls, while the Greeks and Romans wore short clipped hair. Our modern parting dates back

about a hundred and twenty years. Before that gentlemen wore wigs over their own close-cropped polls. Wigs went out, and since the close crop too nearly resembled the conical hair was allowed to grow and parted as it is at present.

Our language tickles us. A man should keep his chin up in the air without keeping his nose up.

RADIO SETS OF CRYSTAL DETECT AT 1,000 MILES

Require No Batteries for Receiving and But Few Instruments

CHICAGO, Ill. Many records of long distance reception of radio from radio-phonograph stations, by receiving sets using a crystal detector, have been made during the past winter, according to reports compiled here today by an interested radio amateur. While radio experts say such records are not as impressive as records made by a vacuum tube set, they are not without interest and with the weather conditions ideal.

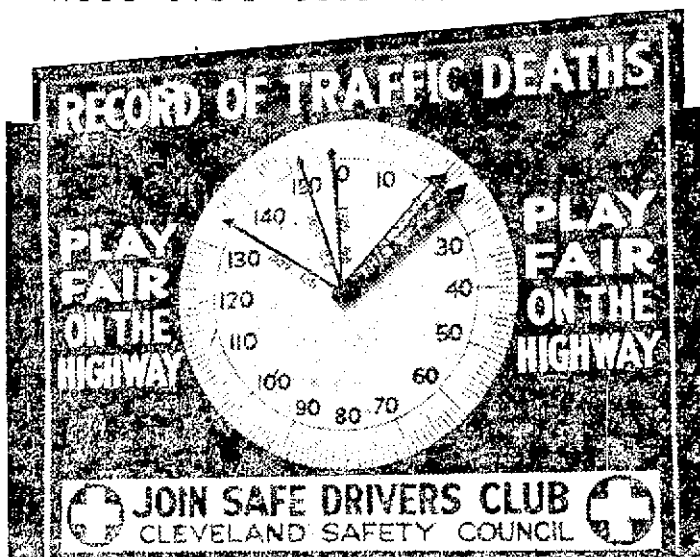

The very first receiving set, it was estimated, requires no batteries for its operation and very few instruments. The crystal detector set is a simple device, using a small piece of crystal, crystal, lead wire, to make the radio signals "click" up by the aerial or antenna into recognizable sounds. The crystal is fastened in a holder, and so arranged as to be in contact with a fine copper wire which is adjustable over one part of its surface.

Some amateurs have reported receiving broadcasting stations as far away as 1,000 miles, while others say that they have heard stations 300 miles or less from their listening posts.

Such long distance reception, radio experts have explained, is due to the crystal set, alone and without any outside assistance from a clarifying set that uses an audio tube as a detector.

Due to the reports of long distance receiving with the crystal set, radio amateurs have begun to experiment with the crystal set, alone and without any outside assistance from a clarifying set that uses an audio tube as a detector.

WHY NOT TRY THIS HERE?

This huge clock on Cleveland's most prominent corner shows from day to day the number of traffic deaths in this year and how they compare with the previous year. J. E. Thompson, chairman of the Safe Drivers Club, is author of the idea.

TEARS AS FIRST AID TO THE EYES

Our body is perpetually supplying tears to our eyes, and every time we blink these tears are smeared to the eyelids across the ball of the eye in order to clean it.

Explosion of still causes owner's death. ST. PAUL, Minn.—A dealer in explosives died at a hospital here from injuries he sustained when an electric still in his home exploded. Police re-

leased 1,000 gallons of alcohol and four stills. The explosion resulted in \$1,000 damage to the home.

LET POSLAM DRIVE ITCHING ECZEMA AWAY

Poslam is CONCENTRATED relief for skin troubles. It cures itching, burning, stinging, and smarting. A little on the inflamed parts and you no longer have to scratch and itch. Poslam is a skin cream with a thick, creamy texture. It is applied to the skin with the fingers or a brush. It is a relief for all skin troubles. For trial sample, send 10c to POSLAM, 243 W. 14th St., New York.

SEED GERMINATION VARIES

It is, of course, a well-known fact that the capacity of seeds to germinate tends to decrease with age. In some cases germination capacity falls rapidly; in others it remains high for several years after the seed has been harvested. Among vegetable garden crops, parsnips afford an example of seeds whose germinating capacity soon deteriorates, even so short a period of one year sufficing to reduce

the percentage of germination to a low figure. Plants of the cabbage tribe, turnips, etc., retain their germinating capacity longer, but at the end of two or three years it will be found to have become less than it was in the year of harvesting. The seeds of peas and beans suffer less from the effects of keeping, and may give quite good results after three or more years. Needless to say, the power of seeds to retain their capacity to germinate varies not only with the variety but also with the nature of the

harvest and with the conditions under which the seeds are stored. A poor harvest year generally means in this country one in which seeds do not ripen thoroughly; that is, does not dry off completely, and such seed generally shows a relatively low initial power of germination and poor "keeping" properties. Conditions of storage also affect the keeping properties of seed. If the air is either uniformly damp or subject to marked alternation of dampness and dryness, the germinating capacity falls off rapidly.

KELLOGG'S BRAN drives Constipation out of your system because it is ALL BRAN!

Foods with partial bran content can never give the constipation sufferer permanent relief! If you need bran get Kellogg's Bran because it is ALL BRAN! Why waste time; why give your system chance to slip further into disease? KELLOGG'S IS SCIENTIFICALLY PREPARED TO RELIEVE SUFFERING HUMANITY, AND IT WILL DO IT AS NO OTHER FOOD CAN!

Kellogg's Bran is nature's greatest sweeper, cleanser and purifier of the intestinal tract. Its work for health is wonderful. It should be eaten regularly, as a preventive of constipation as well as a permanent relief!

To-day—start to rid your system of toxic poisons that come largely from constipation and lead to many dangerous diseases, such as diabetes, Bright's, rheumatism, as well as headaches, mental and physical depression, pimples, bad breath, etc. Kellogg's Bran, eaten regularly, will

soon have you back on the up-trail with a clear head and ambitious body!

Eat Kellogg's Bran consistently! Your physician will advise it! Two tablespoons each day; as much at each meal in chronic cases! Being cooked and krumbled and ready to eat, Kellogg's Bran is very delicious as a cereal, sprinkled over hot or cold cereals or cooked or mixed with hot cereals. Add two tablespoons of bran for each person and mix with the cereal to be cooked!

Try Kellogg's Bran in raisin bread, muffins, cookies, etc. Recipes on every package. Get yourself and your family free from ninety per cent of illnesses which are caused by constipation!

Kellogg's Bran is served in individual packages by leading hotels and clubs. Ask for it at your restaurant. All grocers sell Kellogg's Bran.

Kellogg's Look for this signature H.K. Kellogg
the original BRAN—ready to eat

BILL PROPOSES CUT IN HOURS OF LABOR FOR BADGER WOMEN

Hearing Held Thursday on Olsen Bill Establishing Forty-four Hour Week

LA CROSSE WOMAN AMONG PROPONENTS OF THE BILL

Employers Appear in Opposition to Proposal

MADISON, Wis.—With a committee recommending the killing of the Olsen bill, the Wisconsin legislature today passed a bill for a 44-hour week for female workers. The bill, introduced by Representative Olsen, was passed by a vote of 18 to 12. The bill would require employers to pay overtime for work in excess of 44 hours a week. The present maximum is 55 hours a week for women.

In general the same factions that fought over the Tucker bill argued for and against the bill offered by the socialist student of Marquette, O. J. Olsen of Milwaukee.

Olsen explained his bill as an eight-hour day for women and providing for cutting time of work from 19 hours a day to 16. It is the present rule. The present maximum is 55 hours a week for women.

J. J. Haddley, Milwaukee, secretary of the Wisconsin Federation of Labor, declared that his organization favored the Olsen bill, not as a protective measure of women who are members of the organization because they already are employed on an eight-hour day basis, but in behalf of the unorganized workers.

Mrs. F. Green, La Crosse representative of the Wisconsin Federation of Labor, declared that she considered the bill as more important than the effect to the women employees themselves. She asserted that long hours prevented self-development of women.

Mrs. Louis Kuhlberg, representing women organizations, said that there was no danger that women would not have a multiple purpose in which they would devote their spare time of the eight-hour day law was passed. She said that in a study of the question she had discovered that the working girl had little time to devote to her wardrobe under the present long hours of employment.

With numerous employees of the state appearing against the measure, debate was limited. Theodore Plough, representing the Phoenix Hosiery company, Milwaukee, made the principal address against the bill.

Plough contended that there is but one thing that can build character and that is work and he emphasized that this was not a matter of legislation.

He spoke of his firm which he said employs over 1,000 women for an average of 19 1/2 hours a week. These employees have had their wages doubled in the last six or seven years, he declared.

He told of a system of medical examination that had been instituted by the firm to determine what the result of the nine-hour employment daily had on the women and said that they have been unable to find that it had a harmful effect.

BLAINE SIGNS BILL CENSURING HISTORY BOOKS FOR SCHOOLS

MADISON, Wis.—Governor Blaine today signed the Cashman bill, passed by both houses of the legislature, prohibiting the use in Wisconsin schools of history text books which contain propaganda favorable to any foreign government. This act will take effect upon publication within the next two days.

Senator Cashman declared that early action would be taken in a number of cities to rid their schools of history books which he claimed came within the prohibition of the statute for which he is responsible. Upon complaint of five citizens the superintendent of public instruction is required to hold a public hearing, and upon facts developed to determine whether the history books violate the new law.

BARABOO RIVER RISES: DAM AT WONEWOC OUT
BARABOO, Wis.—The Baraboo river for the second time this spring has reached high water mark and is still rising, doing considerable damage to the low lands and obstructing traffic. The Wonewoc dam went out Wednesday morning and other dams are in danger.

HAIRPINS NO EVIDENCE
LONDON. Hairpins found on the bed of the correspondent were submitted as evidence in the divorce case of Tom Gurnam Stephenson. Farness against his wife. Wife's counsel protested that proved nothing because Mrs. Farness has robbed hair.

"ROMEO AND JULIET" AND "HAMLET" ARE CHOSEN FOR LEIBER

Fritz Leiber, for years a favorite, will visit the La Crosse theater with his remarkable Shakespearean organization for matinee and night Saturday, April 14th, under George Ford's direction. This famous young romantic player has won an astounding triumph in recent years with his unusual portrayals of the great plays handed down by the master dramatists.

Mr. Leiber's method is wholly new and based on ideas of naturalness and beauty. He plays his characters like an actor rather than a savant, his conceptions being free from the cant and bombast seen in many players of the past.

An able cast of thirty supports the stars, including Louis Leon Hall, John Burke, Robert Strauss, Harold Winston, Philip Quinn, Anthony Andre, Olive Oliver, Virginia Bronson, Carol Kohl, Olga Lee, Blanche Chapman and Alma Lind. The schedule of plays here will be as follows: "Romeo and Juliet" for the matinee, "Hamlet" for the night's fall.

GOLD DEPOSITS IN THE BRITISH ISLES

Gold from Welsh workings was used for the wedding rings of Queen Mary and Prince George.

In Scotland are found traces of gold having been worked at Leadhills, in Lanarkshire, and it was probably from this source that the ancient Scottish kings obtained the gold for their crowns.

Gold has also been found in other parts of Scotland, notably in South Lanarkshire, and in 1828 there was a regular "gold rush" here.

Welsh gold has been found in Wicliffe.

Cornwall is the principal gold county of England, though only recently a tourist managed to strike a small "pocket" and collect about three pounds' worth on the Yorkshire Moors.

TRAIN KILLS TWO BOYS TRYING TO SAVE KITTEN
NEW YORK. A kitten frolicked about on the tracks of the Long Island railroad at Clifton, N. J., where Van Deyken, 10 years old and Fred Vest, 8 years old, heard a train in the distance and rushed to the kitten's rescue. All three were killed.

MICHIGAN STATE PLANNING FOR BIG BUILDING PROGRAM

LANSING, Mich.—The Michigan State fair association soon will launch an extension program calling for expenditure of nearly \$350,000 if Governor Grosbeck signs a bill authorizing the executive offices by the senate Friday.

The improvements include a \$150,000 sheep and swine building, additions to the grandstand to cost \$100,000, sewers and pavements to cost \$28,000, a new machinery hall to cost \$10,000, and a heating plant for the Coliseum which will cost about \$10,000.

The bill places the fair on a new basis in that all the bonds are to be retired from earnings. Funds also are provided for premiums and this added state aid will enable the association to discontinue the "Midway" with numerous features that have come in for criticism by the public.

SALT, ONE OF THE NECESSITIES OF LIFE

Salt enters so largely into our physical makeup that, to compensate for the daily loss occasioned through perspiration and so on, we must have salt or die.

There are, of course, cases where an absolutely saltless diet has been temporarily prescribed for certain diseases, but, on the whole, the scientific rule is that human life is impossible without salt.

In practice, however, a good many savage races of mankind do live without salt, and even Europeans, forced through some particular circumstances to do without it, have managed to live. In reality, they have all the time been taking salt, not consciously as a separate article of diet, but in other forms contained in their food.

The chairman said the constant aim of the company during the century and more of its existence was the preservation of valuables from the hands of the too enterprising burglar.

The firm can build a banker's strong-room door or safe impregnable to fire as well as to the burglar was shown on the film. The armor plate used consists of five layers of steel of varying degrees of hardness rolled together while red hot, resulting in a plate which can neither be drilled nor fractured. Ordinary steel to which the powerful flame of a blowpipe was applied was seen to pierce down like a stream of water, but the same powerful flame hardly raised a blister on a door made of the new composition invented by the firm called Chubb alloys.

GIRL HELD AS KIDNAPER
GRAND RAPIDS, Mich.—A warrant has been issued here for the arrest of Miss Edith G. Birch, a 19-year-old bookkeeper, charging kidnaping of funds of the E. Higgins company, book dealers. Officials of the company declare a shortage of between \$10,000 and \$15,000 has been found in Miss Birch's books which were said to have been unaccounted for.

Three automobiles, expensive clothing and home furnishings, and unaccounted loans to friends are said to have consumed most of the funds.

WHITWATER WOMAN WINS
WHITWATER, Wis.—George W. Coppins, local business man, on Tuesday was elected mayor, pitting a larger vote than his two rivals, Spencer Fish and Estlin Johnson. The vote was: Coppins, 220; Fish, 256; Johnson, 451. Mrs. Matilda Case Fowler was elected Whitewater's first woman alderman.

DESERTION OF ATHELSTANE
FAMILY MYSTERY VILLAGE.
ATHELSTANE, Wis.—This village is aroused over the mysterious disappearance of a family from a farm near here. The household goods, with a washing in a tub, the stock and all were left as they were. Neighbors discovered the place vacated and the stock tied in the barn. It is understood there was no indebtedness on the place and its abandonment is a mystery.

MOVIES

"ADAM'S RIB"

All those who literally worth while photoplays, should see Cecil B. De Mille's latest Paramount production, "Adam's Rib" which is having a highly successful engagement at the Majestic theater this week. The principal roles are in the capable hands of Milton Sills, Elliott Dexter, Theodore Kosloff, Anna Q. Nilsson, Pauline Garon and Julia Payne, and their characterizations fully maintain the high De Mille standards of art. The story is intensely interesting and the production as a whole, one of the best Mr. De Mille ever has done. Don't miss it, for you'll be sorry if you do.

AT THE STRAND

It was to be expected that Elaine Hammerstein and Conway Tearle would make a splendid starting team; the result in "One Week of Love" at the Strand theater today, far exceeds expectations. Miss Hammerstein, surely has never done more accurate work than in the present instance; and Mr. Tearle is virile and accomplished as usual.

"One Week of Love" there is something positively big and fine, a blending of thrills and common sense that leaves one breathless with surprise. The author, Edward T. Monaghan, has had the good sense to go back to natural backgrounds for his appeal. Seeing "One Week of Love" is convincing proof that the true force of the screen is out-of-doors and not between the panned-up walls of artificial studio paraphernalia. It is like going out into the wilds for a vacation; you come back refreshed and healthier for the experience.

STRONG DRAMA WITH PAULINE FREDERICK

Rarely indeed does the public have an opportunity of witnessing a screen production so removed from all that is sordid and repugnant, and yet one which touches men, every shade of human emotion. In "The Mistress of Shenstone," starring Pauline Frederick, famous emotional actress, such a production is presented. The picture opens at the Casino Theater, today.

Adapted from the well-known novel by Florence L. Barclay, "The Mistress of Shenstone," tells a tale of love sacrifice and honor that has had few counterparts on the screen. It is a page out of real life, thrilling with dramatic action, but with all its clean and wholesome as a plain wind.

"FURY"

They thought he had a "fellow streak." He took the cuffs of "Doc" Lexington submissively. But "Doc" Lexington was captain of the ship and his father.

He cringed when rough sea-faring men glared.

But he forgot his fear when one of them aimed a knife at another, and he seized it, hurling it overhead, only to be beaten again for the act. He swallowed his father's scorn of women, but he rebelled when the captain disrespected the girl he loved.

BLAINE OPPOSES MILLION FUND TO HIT CATTLE T.B.

MADISON, Wis.—The conference of farm organization representatives held Thursday in Governor Blaine's office to agree upon a financing program for bovine tuberculosis eradication in Wisconsin, resulted in appointment of a committee to draft a bill carrying out determinations of the meeting.

After discussion, it was suggested by the governor that a \$1,000,000 fund for tuberculosis eradication in the dairy industry of the state, could not be made available without a change in the tax program, or the assessment of a special tax.

A committee of those present will draft a bill and submit to a later conference.

GOLDS THAT DEVELOP INTO PNEUMONIA

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation. While the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga.—(Adv.)

MAIN PROHIBITION FIGHT OF SESSION TO BREAK APRIL 11

Wets and Drys to Clash Wednesday on Search and Seizure Bill

KAMKE BILL TO CUT DRY FUNDS
ALSO COMES UP FOR ACTION

Anti-Saloon League Chief Predicts Victory for Drys

MADISON, Wis.—Assembly wets and dries will clash in one of the largest prohibition fights in the session on Wednesday when the Kamke bill cutting the appropriation for the state prohibition department and the search and seizure bill will come up for passage.

The Kamke bill would reduce the appropriation for the state prohibition department from \$80,000 to \$10,000. If the bill passes the force of the office would be reduced and the state prohibition commissioner would serve merely as a superintendent of local law forces. In the suppression of the liquor law violations.

Wets contend that under the present system of having the state, federal and municipal governments all engaged in enforcing prohibition, there is a system of "passing the buck" that is springing up. Under the Kamke bill the prohibition commission would keep a check on the law, and the state and municipal governments would have an advisory capacity.

The search bill, which would prevent law enforcement officers to search homes unless they had a warrant, would be a real test of the power of the state and municipal governments.

consumers of home-made beverages. Wets contend that dry officers have raided homes and caused arrests where non-drinkers had made wine or other beverages for their own use only.

Unite in Two Bills

Although other wet measures have been introduced in the legislature at this session, wet leaders claim that the Kamke and search bills are the two main features of the wet legislative program for this session.

Wets will produce a solid front for the two bills and a wet caucus will precede the Wednesday debate. Wets assert that there are certain that both of these bills will pass the lower house by considerable majority.

Wets and dries who have varied opinions on the extent of prohibition are said to be lined up solidly on both the Kamke and search bills.

The real goal of the wets is the return of light wines and beer but this question is beyond state legislation. The Peterson bill memorializing congress to define the meaning of "intoxicating liquor" is an expression of this sentiment.

Wets claim that if the federal government took action on their request that it would be found that beverages with as high a percentage as three percent alcohol would be found to be intoxicating. It is claimed that this has already been established by scientific tests.

Predicts Dry Victory

The wets are going to lose their fight for amendment to the search and seizure section of the Severnson prohibition enforcement statute, through adverse action by the senate, despite the open advocacy of a proposed to restrict the activity of law enforcement officers. R. N. Hicks, legislative counsel for the Wisconsin Anti-Saloon League said in an authorized statement Friday.

It is declared that the dries would be able to prevent passage of the search bill, amending the Severnson bill, and seizure section of the Severnson law, when the measure comes up to floor for vote in the assembly April 11. It is intended to protect the liquor law.

is in the senate that the dries are looking for their strength.

Here the Anti-Saloon League still says that it has sixteen votes including a number of Progressive Republicans.

Chief governor has not expressed the attitude of the progressives in the legislature, nor has he expressed the attitude of the statewits. Mr. Hicks said "He has only pleased the wets, and by pleasing them, he has not turned any votes in the upper house. We still count on 16 and possibly seventeen members to vote against the search bill, the principal wet measure of the session."

MILWAUKEE TEACHER DIES IN SCHOOLROOM

MILWAUKEE.—Taken suddenly ill while in charge of a class at South Division High school, Miss Blanche L. McDonald, an instructor, died in her room in full view of thirty students Tuesday morning.

Miss McDonald had just collected home work papers from students in her Spanish class at about 8:45 a. m. when she was taken with a violent coughing spell. She leaned over her desk as if to brace herself while coughing, and then walked to the center of the room to address her pupils.

Without uttering a word, she collapsed. Other teachers were notified and Miss McDonald was removed to the restroom where she was attended by a physician. She was pronounced dead upon his arrival.

ONE DYING AFTER
BATTLE FOR KISS

CHILTON, Wis.—Steve Montwell, line kin worker, is near death in a hospital at Plymouth, and Nick Andrus is in jail at Chilton, charged with assault with intent to do great bodily harm, as the result of a fight occurring when Montwell went to the defense of his wife, whom it is alleged Andrus was trying to kiss. Andrus claims that he struck in self-defense when Montwell attempted to stab him. The later charges that Andrus hit him over the head with a heavy piece of wood when he attempted to defend his wife, whom he alleges Andrus had tried to kiss, and subsequently struck on the head with a dishpan causing severe bruises and blacking both eyes.

DENVER NEWSPAPER TELLS OF GIGANTIC U. S. PROBES

DENVER, Colo.—The Times Wednesday afternoon printed a story that Denver is to be the scene of two of the largest federal investigations ever conducted in the west soon in which William J. Burns, director of the United States department of justice and federal prohibition commissioner Haynes will figure.

SPEAR OF THE ESKIMO

After the Eskimo splices his spear handle he puts on the point with a toggle joint. When a seal or walrus is harpooned the sudden struggle of the animal does not break the spear, but merely unloosens the point, and the more the animal struggles the more the point turns crosswise in the wound and the firmer the harp takes hold. The animal cannot escape for with things of skin the point is connected with the spear shaft. The animal merely swims away or dives deep into the sea, carrying with him the spear. The long leather thong which is attached to it floats from the deck of the kayak and plays out. When the harp is pulled out it is seen to be attached to a float, which is also carried on the deck of the boat. This is made of an inflated skin. It has plugs and attachments of cleverly carved ivory, for wood is far too precious to be used in this kind of ivory so far from the forests. The float serves as a buoy so that the Eskimo can follow the animal and find it after it gives up its struggle and dies.

LATEST SKIN GAME

MARZHAUSEN, Germany.—A man of highly official manner told village officials here he'd been sent by the government to remove the electric wiring of the whole village and replace it with heavy wire, which would deprive the village of light for one night. The stranger repeated the wire and made away with it. Marzhausen is getting along with candles now.

The German mercantile marine has 233 vessels over 25 years old.

DEADLOCK

BY FRANK H. SIMONDS

WASHINGTON, D. C.—While all the discussion of reparations is a dead-end until such time as there is a solution of the Ruhr problem which means an adjustment of the question of French and Belgian security, certain lines are being laid down for the ultimate disposition of the German reparations which, according to the latest agreement, will be paid in a lump sum of \$12,000,000,000. It is equally patent that such a maximum excludes two things, namely: war pensions and interallied debts, that is to say that the most anyone now believes Germany can pay, which is, naturally, a sum in excess of German estimates, will not suffice to do more than meet the costs of reconstruction of war ruins.

In view of the fact it will hardly suffice to do this. Assuming that war pensions are eliminated, then the French will be entitled to some 75 per cent of the sum, Germany, perhaps, one-third, and Belgium, one-fifth. The French will be entitled to some 75 per cent of the sum, Germany, perhaps, one-third, and Belgium, one-fifth. The French will be entitled to some 75 per cent of the sum, Germany, perhaps, one-third, and Belgium, one-fifth.

It is, for example, according to a number of general agreements that the maximum sum which Germany can be expected to pay is around \$12,000,000,000. It is equally patent that such a maximum excludes two things, namely: war pensions and interallied debts, that is to say that the most anyone now believes Germany can pay, which is, naturally, a sum in excess of German estimates, will not suffice to do more than meet the costs of reconstruction of war ruins.

It is, for example, according to a number of general agreements that the maximum sum which Germany can be expected to pay is around \$12,000,000,000. It is equally patent that such a maximum excludes two things, namely: war pensions and interallied debts, that is to say that the most anyone now believes Germany can pay, which is, naturally, a sum in excess of German estimates, will not suffice to do more than meet the costs of reconstruction of war ruins.

It is, for example, according to a number of general agreements that the maximum sum which Germany can be expected to pay is around \$12,000,000,000. It is equally patent that such a maximum excludes two things, namely: war pensions and interallied debts, that is to say that the most anyone now believes Germany can pay, which is, naturally, a sum in excess of German estimates, will not suffice to do more than meet the costs of reconstruction of war ruins.

or not they never will pay because they will never regard payment as either possible or just. If they did pay us and the British, it would amount to turning over all that Germany could pay for the reduction of the devastated area to the American treasury.

It follows, then, that all Europeans and a few Americans have come to recognize that the two essential steps to real settlement of the reparations problem are the cancellation of the interallied debts and the cancellation of the German reparations to a figure which is commensurate with Germany's capacity and willingness for the past four years to have been able to pay.

All talk of an economic conference, or a commission of experts is beside the point because the sum of reparations is not in dispute and the method of collection is a political before it is a financial issue. All talk of any reparations arrangement is now idle in the question of French and Belgian security is disposed of. But if

that should be removed, then the moment is coming when all Europe will not only fix upon us the responsibility for preventing a settlement, but quite probably, proceed by repudiation to accomplish what is otherwise impossible because of our refusal to cancel.

As a matter of principle we may refuse to cancel, as a matter of policy the continental states may avoid repudiation by indefinite postponements without formal refusal to pay. But the bottom fact is that since Germany can not pay both reparations and interallied debts, we are not going to have the debts paid, while since Germany cannot pay both pensions and reparations, the British are going to get practically nothing out of Germany. Moreover, as long as we stand for debt payments and the British either for sufficient continental payments to discharge their debt to us or for pensions, the whole question is deadlocked and all hope of final settlement is illusory.

HAROLD PROCTOR IS RE-ELECTED AS CITY ATTORNEY, VIROQUA

VIROQUA, Wis.—Election day in Viroqua was very quiet. Harold Proctor was re-elected city attorney. Nick Krizan of first ward and R. L. Johnson of second ward were elected to succeed themselves as aldermen. In the third ward, Alderman Perry J. McHenry was defeated by E. A. Wigniewsky.

The following marriage licenses have been issued recently in Vernon county: Select David to Dorothy Oliver, both of Viroqua. Elmer O. Roud to Clara J. Hoff, both of Westby. Harold C. Jacobson to Pearl Glass, both of Rosharon. Victor R. Schaefer of Baraboo, to Vida Eckhardt, of Viroqua. John Geddes of Liberty, to Grace Shell, of Richland county.

500 DIGS OUT OF SNOW

SAULT STE. MARIE Mich.—Comp. street car service was resumed in the Sault on Tuesday after one day's stop.

week, during which time blizzards practically cut off all traffic. More than 100 business men, 150 soldiers from Fort Brady and several hundred factory employees answered the call of Civic and Commercial association for volunteers and dug out the tracks. In places the snow was piled fifteen feet high.

SCHOOLBOY HEADS PLOT
MUNICH.—A schoolboy, 17, has been seized as leader of a plot to assassinate Herr Bauer, deputy to the Reichstag. Eight of the boys also are under arrest.

LOOK For the Seal of QUALITY --It's the Best Flour Made

If you want the best flour made, then insist that the sack the boy delivers has this seal on it—Hormel's Quality Flour. You'll find that you get more loaves per sack, that you'll like the distinctive nutty flavor, that each batch of bread will stay fresh longer and that the family will notice the difference at once.

The reason Hormel's Quality Flour is the best is because it is made from selected hard spring wheat, the best grown, and because of its special milling process.

It's guaranteed to please—money back if it doesn't. Why not order a sack at once? If you don't like the results we'll buy it back from you. That's a fair proposition, isn't it?

MILITARY TRAINING AT U. OF W. UNDER LEGISLATIVE FIRE

Two Bills. One Makes Training
Optional. Another Does Away
With it. Up for Hearing

ALSO CONSIDER BILL TO TURN ARMORIES INTO SCHOOLHOUSES

Plan for Optional Military Train-
ing Has Backing of Blaine

MADISON, Wis.—(By The Associated Press)—Military training at the University of Wisconsin will feature hearings in committee of the legislature during the coming week, with the Polakowski bill to do away with state armories and turn them into school houses another consideration of the committee sessions.

Two bills, both aimed at the university, will be before a joint meeting of the senate committee on education and public welfare and the assembly education committee, on Friday, April 12. The Sachtlein bill in the assembly would make military training optional rather than compulsory and the Polakowski bill in the senate would do away with the training entirely.

The joint finance committee on Thursday will hear the Polakowski bill, turning state-owned armories over to the cities in which they are located for school purposes. This measure affects property valued at approximately \$250,000, the adjutant general's department estimates.

The Sachtlein bill has received the backing of the administration, and according to Assemblyman Herman Sachtlein, its author, should go through the legislature with but little opposition. The Polakowski bill, on the other hand, has a strong following among the cities, but is being opposed by the finance committee for consideration of its financial features.

Three bills relating to the state's corrupt practices act are up for hearing before the assembly elections committee on April 11. Two of these measures by Speaker John L. Dahl extend the scope of the act to include corporations, associations, organizations, committees or groups which advocate or oppose any candidate or any group of candidates for public office, requiring them to file expense statements.

The bill by W. A. Frohoff has much the same purpose but is even more broad in its scope.

The senate education and public welfare committee on April 10 will consider the bill.

MEMORY WINS HER SCHOLARSHIP

Miss Harriet Doeringer, Waukegan, Ill., high school girl, shown above, has won a scholarship in any college in the United States because her knowledge of music and composers is greater than that of any student in her school. A symphony orchestra played a few bars from thirty-five classical compositions. Miss Doeringer told the name of each, its composer and the country of its birth.

hear the Polakowski bill, already passed by the assembly, making vaccination voluntary instead of compulsory in Wisconsin. A bitter fight was waged in the senate over this proposal two years ago, before it was finally killed.

This same committee on April 11 has the Sachtlein bill repealing the state's corrupt practices act, as for hearing. This proposal also has been passed by the assembly.

The Sachtlein bill, repealing the

continuing appropriation to the Wisconsin national guard is to be heard by the senate corporations committee on April 11. Enforcement of this measure would force the national guard to go before each legislature for an appropriation before it could operate for the ensuing biennium.

The last of the known pupils of Chopin, M. Poni, has just died of hunger in a Paris garret. He was nearly one hundred years of age.

HOTEL LANDMARK IN PHILLY TO GIVE WAY TO MODERN BUILDING

Continental Hotel, Former Show
Place of East. Built in
1860, to be Razed

PHILADELPHIA.—The old Continental Hotel, a landmark in Philadelphia, which has sheltered presidents, emperors, princes, generals, authors and grand opera stars, is to stay nothing of others of prominence in the city of its activity, will soon be razed. Comfortable but old-fashioned the famous place will give way to a modern 1,200 room hotel to be known as the Benjamin Franklin.

The Continental, built in 1860, was a show place in the east when erected. Ghosts marveled at its grand staircase of polished Italian marble and its spacious, art-enriched dining hall. It was one of the first hotels to be equipped with an elevator.

King Edward VII, as the Prince of Wales, occupied the Presidential suite, the hospitality of which was subsequently accorded Dom Pedro, Emperor of Brazil when he visited the Centennial Exposition in Philadelphia in 1876. Charles Dickens also occupied the suite.

The Continental was frequented by Republican leaders of Civil War days, and the Republican National Committee used its rooms as a headquarters in the campaign for President Abraham Lincoln's re-election. General Grant was an occasional visitor after the Civil War.

Here, too, the first ambassador from Japan was entertained, Grand Duke Alexis of Russia, and all the presidents from Lincoln to McKinley registered at the Continental. Other noted guests included Clara Louise Kellogg, grand opera star; Mimi Melba, Lillian Russell and Joseph Jefferson.

J. R. Kingsley, a manager of the Continental, once averted a situation that might have proved embarrassing for President Andrew Johnson. The mayor of Philadelphia had refused to receive the nation's chief executive, and Mr. Johnson was welcomed in Parlor C of the hotel through the

courtesy of the manager. A committee of citizens extended the city's hospitality.

In Parlor C important meetings and conventions were later held. These included the Pan-American Congress of 30 years ago.

\$357 CHECK FOR CREAM IS LARGEST AT BARRON
BARRON, Wis.—The 1,060 patrons of the Barron Co-operative creamery received approximately \$80,000 for cream delivered during February. The creamery received 480,234 pounds of cream and from this amount 135,584.2 pounds of butter fat were obtained. The price paid for butterfat was 58 cents a pound, Samuel Peterson of Hillsdale received the largest cream check—\$257.51, Phil H. Miller, Almena received \$332.65, and Jasper Sablin, Barron, was third with \$316.97.

Hair Grown or no money!

Falling hair. Lifeless hair. Partial baldness. We guarantee in writing to correct it. The hair roots can be revived, given new life. Science has discovered new principles. The Van Ess Liquid Soap Massage combats that infected sebum which clings to hair and destroys it. Patented applicator free with each bottle massages germ combating elements directly to hair roots. Results are amazing. Ask your druggist for the Van Ess treatment and the 30-day guarantee plan.

RAZOR HONES MADE FROM PETRIFIED WOOD

In Ireland there exists what is undoubtedly one of the most curious lakes in the world. This lake has the power of petrifying any substance that may fall into it.

Of course, the petrification is not absolute, but the substance is coated with a layer of stone, which is found dissolved in the lake, and the stone then burdens and forms a shell over the substance.

A well-known cutlery firm heard of this and sent a man over to inspect it.

He selected several pieces of hard wood, which he sank with weights, and they marked the places with small boys.

A fortnight later he returned and took up two pieces of the wood, which he found to be partly petrified. Two weeks after he drew up the

other pieces, and found each piece to be as hard as flint. The firm then made several experiments with the wood, and found that at a certain stage of petrification an excellent razor hone could be manufactured from it.

SHERBOYAN LEASES DOCK
SHERBOYAN, Wis.—The city has completed negotiations for leasing one of the Reiss docks here to be sublet to the IHL Steamship company.

Large quantities of powdered charcoal is considered a very good antidote for strychnine poisoning.

Demon Rum in a Fight for Life

"Pieces of Eight! Pieces of Eight!" screamed the parrot in "Treasure Island," and, at the climax of that great epic of adventure, wicked and delightful pirates bellowed a chorus of "Yo-ho-ho, and a bottle of rum!" Those were great days, also, when adventure beckoned from the Spanish Main and young blood leapt to meet it. It is something of this old thrill, critics of our time announce, that is helping to keep alive the liquor traffic in these supposedly dry, United States. The freebooter of another day has passed on certain of his characteristics to the bootlegger of the present time.

In this week's LITERARY DIGEST, you will read a story of the dark and devious ways by which the rum-running business is conducted; where the armadas of rum-ships are located; how pirates prey upon the bootleg fleet; how prohibition is working in the Province of Ontario, Canada. In fact, the picturesque side of this illegal business is illustrated and described in a highly entertaining way.

THE DIGEST this week also has a feast of other striking news-articles among which are:

What People Don't Know About the South

(Graphically Illustrated)

Borah as Presidential Timber
The Rain of Law
Our Blackshirts and the Reds
What's Really the Matter With China?
A Proposed American League of Nations
How Storms March
The Holy Family in a Lenten Play
How to Save a Drowning Person
Topics of the Day

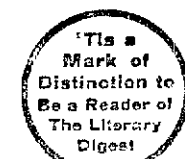

Many Interesting Illustrations Including Cartoons

"I have Seen Your 'FUN from the PRESS' at the Shade Theater

here often, and enjoy it more than any other part of the show, the main feature not excluded. I congratulate and thank you as a patron for making such a feature possible," writes a subscriber from Sandusky, Ohio. "This ardent admirer considers it best, undoubtedly, because this little novelty affords him the maximum of mirth and to laugh heartily is to enjoy life. And 'FUN from the PRESS' is designed for

laughing purposes only. Breezy, timely and brimming with chuckles, this merry motion-picture contains but the best of all the printed patter from the press of the world. A new edition is compiled weekly. So, for clean, wholesome entertainment look for the sign of FUN from the PRESS. Produced by The Literary Digest. Distributed by W. W. Hodgkinson Corporation.
